

## Application

Suitable for residential wardrobes and folding cupboards.

Ideal for use on openings with non-rebated jambs as only simple framing at the head is required to take the top track.

The pivot arrangement allows the panels to fold open to about 100 degrees, allowing unhindered access to over 90% of the opening.

Bottom guide channel not necessary.

## Panel Specification

<b>Guide System:</b>	<b>Bifold 16</b>
For Individual Panels:	
Max Panel Height	2400mm (for panels 29-35mm thick) 2040mm (for panels 23-35mm thick)
Max Panel Weight	16kg
Max Panel Width	620mm
Min Panel Thickness	23mm

Top and bottom rails should be of sufficient size to ensure solid and secure fitting for the guide and pivots. Panels should be made of equal width

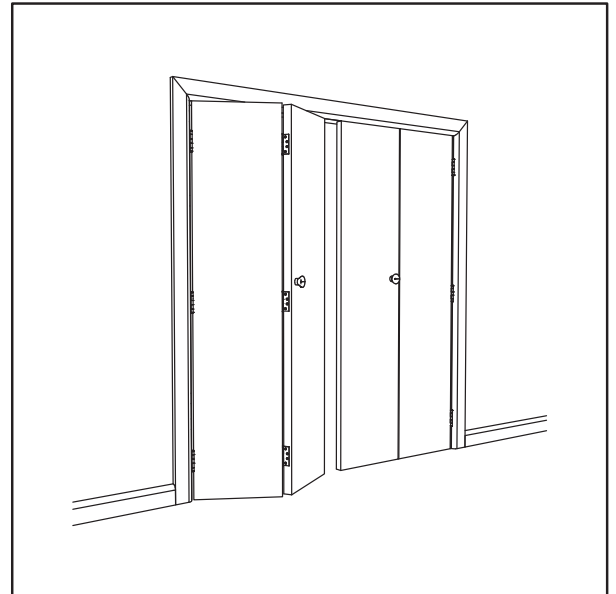

## Standard Sets

Sets for two panels comprise track, top pivot socket, bumper, top and bottom pivots, jamb bracket, top guide, 282Z hinges, spanner, all screws and fitting instructions. Sets for four panels comprise twice the amount of the above hardware, but only one spanner and fitting instruction plus two aligners.

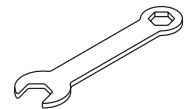

<b>Set No.</b>	<b>Opening width</b>
BF16-09/2	Up to 915mm for two panels
BF16-12/2	916mm to 1250mm for two panels
BF16-18/4	Up to 1830mm for two panels pivoted from each side
BF16-25/4	1831mm to 2500mm for two panels pivoted from each side

## Hardware Specification

<b>Track:</b>	825
Material	Steel in white paint finish
Standard Lengths	820mm, 915mm, 1220mm, 1830mm & 2440mm
<b>Top Pivot Socket:</b>	810
Steel, zinc dichromate	
<b>Bumper:</b>	813
Rubber and steel, zinc dichromate	
<b>Top Pivot &amp; Top Guide:</b>	801
Nylon and steel, zinc dichromate	
<b>Bottom Pivot:</b>	807
Steel, zinc dichromate	
<b>Jamb Pivot:</b>	811
Nylon and steel, zinc dichromate	
<b>Aligner:</b>	808
Steel, zinc dichromate, supplied in 4 panel kits only	
<b>Hinge:</b>	282Z
Zinc plated for 19mm minimum panel thickness, 65mm tall, non-mortice	
<b>Spanner:</b>	320
Steel, zinc dichromate	
<b>Optional Hinge:</b>	823
Electro brass for 23mm minimum panel thickness, 75mm tall, non-mortice
